

# Registrar Learning Plan

Registrar Name and College:	
<b>1. Identification and learning objectives</b>	
Learning objective 1	<p>By (xx date) (timed) I will be confident in my ability to manage back pain in 90% (measurable) of patients from all causes through the use of a diagnostic triage process (achievable) differentiating for:</p> <ul style="list-style-type: none"> <li>• simple backache</li> <li>• nerve root pain</li> <li>• possible serious pathology e.g. lumbo-pelvic cancer, kidney stones (specific) and competently refer patient to specialist care as necessary (realistic).</li> </ul>
Learning objective 2	<p>In three months (timed) I will be able to demonstrate that 95% of patients (measurable) attending the clinic treatment room for treatment of soft tissue injuries are managed by me with the highest level of skill and care (treatment overseen by the treatment room GP supervisor (specific). I will achieve the necessary skill level by alerting staff of my interest in treating soft tissue injuries and will make myself available to observe and/or treat as appropriate. (realistic)</p>
<b>2. Resources/methods for meeting objectives</b>	
<ul style="list-style-type: none"> <li>• GP supervisors</li> <li>• Other GPs</li> <li>• Therapeutic guidelines</li> <li>• Up-to-date with Murtagh</li> </ul>	
<b>3. Methods for measuring progress</b>	
Feeling more confident in my ability. Asking less questions and being able to manage different GP scenarios better.
